Siya Digitex

Where Italian Discipline Meets Indian Soul.

We don't just print fabric. We craft the quiet luxury of a well-made shirt, the whisper of a silk saree, and the ease of a linen bedsheet at day's end.

At Siya Digitex, fabric is a language spoken in color, texture, and conscience.

The Mill

The Mill Where Craft Meets Care

Siya Digitex is a modern indian textile mill with the soul of an Italian atelier. Inspired by the world's finest mills, we examine every meter with precision and handle it with a craftsman's care.

Our Vision

Founded to redefine digital textile Printing through beauty, precision, and sustainability

More Than a Printer

We are a curator of cloth where every design is a story, every fiber is a decision, and every fabric is a promise to the wearer and the earth.

"Our craft stands at the intersection of Italian discipline and Indian soul."

For Every Chapter of Life

Siya Digitex creates fabrics that do not just follow trends they become part of them. Designed for the man who understands elegance, the woman who carries grace in every step, and the home that feels like a sanctuary.

Menswear - Refined patterns and premium bases for the man who knows great style is rarely loud.

Womenswear - Feather-light voiles, luminous silks, and prints that carry the quiet poetry of movement.

Home - Thread counts and color-fast inks that soften the house and deepen the feeling of coming home.

Speciality - Scarves, shawls, kimonos, and upholstery that age like heirlooms - rare, refined, deeply personal.

Menswear Where Elegance Speaks in Whispers

From crisp 100s cotton poplin to rich 60s cotton twill, our menswear fabrics are made for the man who knows great style is rarely loud.

Applications - Shirting, Blazers, Ties, Handkerchiefs, Sarongs

Key Fabric Bases - 100s cotton sateen, poplin, twill, voile, lawn, dobby, Giza cotton; 60x, 60s, 50s cotton sateen; poplins, twills, lycra, linen, dobby; Cotton corduroy, 100% tencel, and natural fiber blends.

A man's shirt is not just a garment. It is the silent introduction he gives to the world.

WOMENSWEAR

When Fabric Feels Like a Memory

A woman's fabric is never only about how it looks - it is about how it feels against the skin and how it moves with her walk.

Key Fabric Bases - 100s cotton voile, lawn, 60s cambric, 60s modal satin; 60s gauze, 60s rayon, 30s rayon, 50s cotton linen; Bemberg chiffon, bemberg crepe, bemberg satin; 100% tencel, 100% silk, cotton spandex, cotton denim; Cotton corduroy and natural fiber blends.

Applications: Dresses, Kurtis, Sarees, Blouses, Sarongs.

*"Every saree is a canvas.
Every dress is a companion."*

HOME TEXTILES

The Quiet Beauty of Living Spaces

Home is not a place you visit. It is where you live into over years the softness of a bedsheet at day's end, the hug of a cushion when you sit down to think.

Bed Sheets -200 to 600 TC percale, satin, and twill bases with prints that stay vivid through seasons of sleep and Sunday mornings.

Curtains - Fabrics that frame light beautifully - sheer voiles and weighted drapes for coastal cottages or city penthouses.

Cushion & Table Covers - Textured, layered, and thoughtfully printed accessories.

Bags - Printed fabric bags that carry the same design integrity.

Speciality Collection

Speciality Collection When Fabric Becomes a Heirloom

Some textiles are made to be shown. Others are made to be felt and known only by the wearer. Our speciality collection is where luxury whispers.

Applications

Scarves &
Shawls &
Kimonos,
Baju Kurungs,
Upholstery,
Sarongs

Key Fabric Bases

100% Cotton,
100% Silk,
100% Rayon,
Cotton viscose
and natural
fiber blends.

*These are the slowest, most
conscious pieces we make
because true luxury cannot
be rushed.*

Sustainability

SUSTAINABILITY The Emotional Responsibility

In Italian mills, they speak of water-rich rivers and clean air as the foundation of quality. At Siya Digitex, we share that belief.

*"Textiles should be beautiful,
but never beautiful at the cost
of the earth."*

Water Conservation

Every 50 meters of pigment-printed fabric conserves 300-500 liters of water.

Clean Chemistry

Our pigments and reactive inks are free from amines, carcinogens, phenols, and carcinogens.

Zero Effluent Philosophy

Pigment printing needs no post-wash rinsing or chemical wash-off cycles.

CO₂ Reduction

By removing steaming and washing from the pigment process, we avoid several kilograms of CO₂ per 50-meter run.

Design & Technology

DESIGN AND TECHNOLOGY The Atelier of Ideas -

Our design studio is a café of imagination. Young designers and experienced creatives work side-by-side, sketching, debating, and refining ideas that become tomorrow's prints. The space is defined by productive tension between tradition and innovation, the hand-drawn and the digitally precise.

1. Bespoke Design Services

For clients that want their own story, our studio offers a complete co-creation process from mood board to final print-ready files.

2. High-Spec Digital Workflow

Our software turns hand-crafted sketches and digital artwork into print-ready files collected by our machines, matched to our fabric base, and matched to our color standards.

3. Trend Intelligence

We track global lifestyle weeks, lifestyle shifts, and emerging market signals so our collections and clients are always ahead of the season.

Digital Printing Technology

Digital Printing Technology - The Whisper of Inkjet

Printing is where chaos meets control. Our digital room hums with EFI Reggiani and Atexco machines - each capable of printing up to 15,000 linear meters per day with artisan-level precision. It is volume with integrity: speed without sacrifice.

Our Printing Fleet

EFI Reggiani (Italy)

High-speed industrial scanning delivers 24/7, high-volume output for rapid large-scale print-on-demand, with advanced inkjet technology, long-lasting print heads, minimal maintenance, and exceptional reliability.

Atexco (China)

High-resolution, cost-effective printing solution for medium-to-high volume production, delivering high-definition output on diverse substrates with robust multi-head configurations as a high-value alternative to European machines.

The Ink Standard

We use European, Chinese and Japanese inks for reactive and pigment printing, chosen for their depth of color, clarity on natural fibers, and compliance with stringent international safety standards. Colors stay vivid through washing, sunlight, and time.

PRE-TREATMENT AND FINISHING

The Conditioning of Beauty

Like a sculpture prepared for its arrival at a gallery, every fabric at Siya Digitex is gently pre-treated and thoughtfully finished before a single drop of ink is applied.

Pre-Treatment:

Padding & Coating of
Fabric Print fabrics

Digital Printing:

Reactive or pigment
printing, up to
15,000 m/day

Quality Control:

Shrinkage, color
fastness, wash with
high tests

Finishing:

Softener, crease
resistance, stain
repellent, anti-pilling

"Our finishing department offers softener, crease resistance, stain and oil repellents, anti-pilling, anti-static treatments, thermo-fixing, and special trims."

QUALITY AND EXPERTISE

The Discipline of Excellence

At Siya Digitex, excellence is not a slogan. It is a daily practice, carried through every machine, workstation, and finishing table across the mill.

Design Precision

High-spec software turns sketches into precise digital prints, with color accuracy, repeat fidelity, and placement control for demanding creative work.

Organic Fabrics

Curated sustainable bases-silks, linens, tencels, and fine cottons chosen for beauty, ethics, and printing compatibility.

Agile Production

Flexible pricing and fast turnaround, without sacrificing quality.

Trend Intelligence

We don't chase seasons. We anticipate them, delivering collections and print libraries that keep your brand ahead of the market

TOTAL QUALITY CONTROL

The Quiet Guardian of Every Meter

Quality is not a department at Siya Digitex. It is everyone's duty - from the operator who loads the fabric roll to the finisher who folds the last meter.

- 01 Before Printing** - Fabric is checked for weave integrity, base weight, dimensional stability, and pre-treatment quality before printing. Only fabric that passes enters the digital print room.
- 02 After Finishing** - Final testing covers shrinkage, color fastness, wash performance, and pilling resistance. If a fabric doesn't pass, it doesn't ship.
- 03 After Printing** - Color accuracy, registration, repeat fidelity, and print clarity are measured against approved strike-offs. Any deviation is flagged, corrected, or removed before the run continues.

"At Siya Digitex, trust is more valuable than speed."

WORKPLACE

The Invisible Fabric of Care

Luxury is not only in the fabric. It is in the hands that made it. At Siya Digitex, we believe a truly luxurious product cannot be made in conditions that diminish the people who create it.

Our Commitments

- Clean, safe, and well-organized workspaces that respect both body and dignity
- Wages set above minimum standards because fair pay is the beginning of fair trade
- Food, water, and shelter provided as basic rights, not perks or incentives
- Safety drills conducted every three months
- Six months of structured training for every new employee.

The Human Standard

When a brand partner visits our mill, they often notice the atmosphere-the quiet focus, the unhurried care, the pride in the work. That atmosphere does not happen by accident; it is the result of years of investment in human dignity as a core business value. If the people who make the fabric are not respected, the fabric cannot be truly luxurious. The care in every stitch, print, and finish is inseparable from the care we give the people behind them.

"If the people who make the fabric are not respected, the fabric cannot be truly luxurious."

Global Reach

GLOBAL REACH —Worn, Lived In, and Loved Across the World

From Europe to Southeast Asia, from North America to Australia Siya Digitex fabrics travel the world with quiet assurance. Our partners choose us not for price alone, but for beauty, reliability, ethics, and creative partnership.

Our fabrics are entrusted to brands that share our belief in a future where textile luxury is both beautiful and accountable. Every shipment carries a promise of conscience, precision, and care.

Product Philosophy

PRODUCT PHILOSOPHY Four Collections. One Unwavering Standard.

Each of our four collections has its own voice and design language, yet all are united by a commitment to craft, sustainability, and the quiet power of a fabric that is truly well made.

Menswear - "Silence That Speaks."
Shirts, blazers, ties, and sarongs
designed for the man who chooses
subtlety over spectacle.

Womenswear - "Fabrics That Feel
Like Memory."
Silk, cotton, and rayon become
second skins.

Home - "Everyday Elegance in
Every Thread."
From bed to table, curtain to cushion.

Speciality - "Whispered Luxury."
Scarves, shawls, kimonos, baju
kurungs, and upholstery that age
like heirlooms.

WHY SIYA DIGITEX

The Case for Choosing Differently

In a market crowded with printers, converters, and commodity mills, Siya Digitex stands apart - not by excelling in just one area, but by delivering excellence across every dimension.

Design Depth: Studio-originated collections and bespoke co-creation, season after season.

Eco Commitment: Pigment and reactive mastery with zero-effluent, low-water production standards.

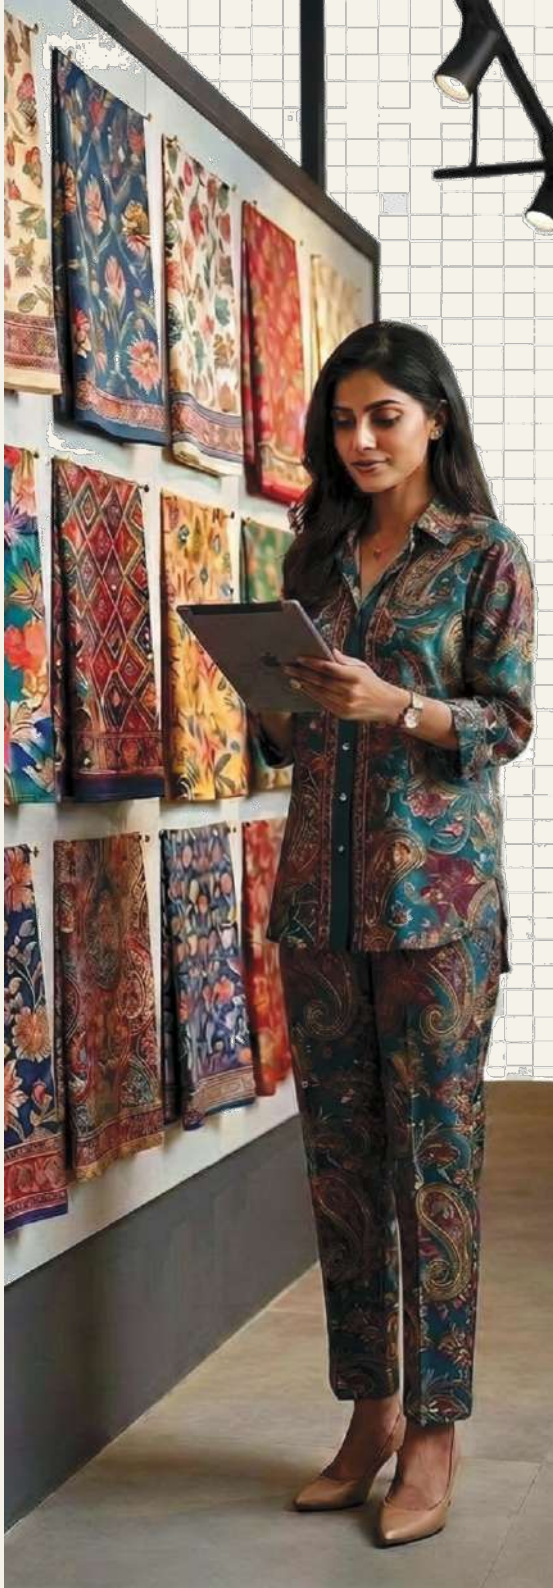

Quality Rigor: Three-stage inspection on every run, for fabrics that earn trust and repeat orders.

Human Dignity: A workplace where artisans are respected, trained, and paid fairly.

Global Reach: Serving fashion, home, and lifestyle brands across Asia, Europe, the Americas, and Australia.

AN INVITATION

Let's Create Beauty, Responsibly

If you are a brand that believes luxury must be kind, beauty must be accountable, and the future of fashion is printed digitally - via reactive and pigment - with heart, then Siya Digitex is your mill.

Explore Our Collections:

Feel the difference that reactive and pigment digital printing makes in hand, in color, and in how a fabric moves and endures. Request your sample set and let the cloth speak for itself.

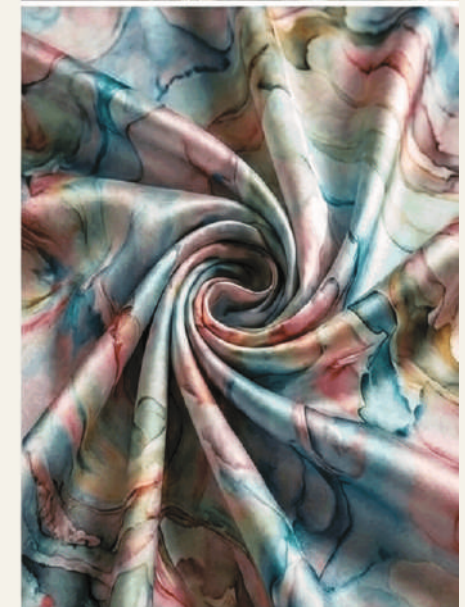

Collaborate with Our Design Studio:

Co-create prints that tell your brand's story.

Commit to Sustainable Production:

Build a supply chain you can be proud of without compromising on design, color performance, or viability.

SIYA DIGITEX

Begin Here.

Contact Siya Digitex today to build a wardrobe, home, or lifestyle that is as beautiful as it is responsible. Every great collection starts with a conversation-and we're ready to have it with you.

Luxury by Nature

Premium natural fibers and finest bases for heirloom quality results.

Crafted Digitally

EFI Reggiani & Atexco printers-15,000m/day

Rooted in Responsibility

Eco-conscious pigment & reactive digital printing, clean inks, fair workplace.

Where Italian Discipline Meets Indian Soul. The mill that refuses to choose between beauty and conscience.
